

# A BIT of our history

## ORIGINS

Flora Fusion, an innovative interior design company, was born out of a deep love for nature and a vision to bring its tranquility into urban spaces.

**The founders, a trio of design enthusiasts, Jose Clavijo, Manuela Olivero and Ruan Mei** were inspired by their shared childhood experiences in the countryside, surrounded by lush greenery and the serene sounds of nature.

They realized that while city life offered many conveniences, it often lacked the calming influence of nature. With this in mind, they set out to create a company that would fuse the beauty of flora with the functionality of interior design, **hence the name Flora Fusion.**

## CURRENT

Flora Fusion is a unique blend of **Jose's creative interior design, Manuela's botanical expertise, and Ruan Mei's efficient project management.**

Together with the expert team, they seamlessly fuse the tranquility of nature with urban spaces, creating sustainable and aesthetically pleasing interiors.

# WHO'S behind?

As we gather our thoughts to express our gratitude, we find ourselves humbled and inspired by the incredible individuals who form the heartbeat of Flora Fusion. Your collective efforts, passion, and talent have woven the very fabric of our company, transforming it into a flourishing haven of creativity and innovation in eco spaces and interior design.

*"Grateful blooms for our incredible team"*
